

Laser safety eyewear ONTOR Filter: 0345, frame color black/white (suitable also for spectacles wearer)

Product information:

Item no.:	000-K0345-ONTO-54
Application:	Supercontinuum Diode-Nd:YAG (800-1064 nm) Yb:YAG/Scheibe (1030 nm) Faser (976 – 1080 nm) Tm:Diode (1470 nm) Telecom (1550 nm) , VLT (Visible light transmission): 11 %
Filter color:	green
Frame color:	black/white
Filter material:	polymer

Alle Angaben ohne Gewähr.
All information is provided without guarantee.

Laser safety goggles with green special plastic filter suitable for Supercontinuum, Diode-Nd:YAG (800-1064 nm), Yb:YAG/Disk (1030 nm), Fiber (976 – 1080 nm), Tm:Diode (1470 nm) and Telecom (1550 nm) laser

Certified protection specifications for EN 207

Properties:

The **ONTOR** is a lightweight **laser safety goggles** made of special polymers, as perfect solution to wear over prescription glasses. This frame offers a large field of vision, and lateral impact protection. The temples can be adjusted individually and a tightly sealed soft face foam improves the wearing comfort.

The **Laser Safety Filter 0345** is suitable in particular for **Supercontinuum, Diode-Nd:YAG (800-1064 nm), Yb:YAG/Disk (1030 nm), Fiber (976 – 1080 nm), Tm:Diode (1470 nm)** and **Telecom (1550 nm) lasers**, but covers additional wavelength as well. The laser safety filter consists of a green special plastic, and offers an visual light transmission (VLT) of 11 % and a minor filter thickness. The laser safety filter is **CE certified** in accordance with the requirements of **EN 207**.

For a perfect and safe cleaning of this filter we recommend this [cleaning spray](#).

Please calculate the necessary protection levels for your laser application, with care and compare them to the given protection level of the laser safety goggle. We will gladly advice you on the selection of the right safety gear.
