## Properties:

The **STARLIGHT** is a light and elegant laser safety spectacle frame made of a special polymer. This lightweight frame offers a perfect fit, due to adjustable temples, a rubber lip in forehead area, as well as an additional lateral protection by wrap-around-design.

The **Laser Safety Filter 0385** is suitable for **Dye laser (577 nm)**. The laser safety filter consists of a clear, mineral glass with dielectric coating and offers an visual light transmission (VLT) of 38% despite its minor filter thickness. The laser safety filter is **CE certified** in accordance with the requirements of **EN 207**

For a perfect and safe cleaning of this filter we recommend this [cleaning spray](#).

Please calculate the necessary protection levels for your laser application, with care and compare them to the given protection level of the **laser safety goggle**. We will gladly advice you on the selection of the right **safety gear**.
